VSL provides metrological traceability for the national and international market by performing calibrations and certified reference materials. For these activities VSL is accredited by the Dutch Accreditation Council (RvA) ([www.rva.nl](http://www.rva.nl)) according to ISO/IEC 17025 and ISO 17034. The accreditation covers the activities as specified in the authorized annex bearing the registration number K999 and P002. Besides these activities VSL also organizes proficiency tests in accordance with the requirements of ISO/IEC 17043. The proficiency tests as referred in the next pages of this annex R006 are linked to the Harmonized Classification Scheme (HCS) codes in annex K999 and P002. For details and specifications, the K999 and P002 scope is referred to.

This annex has been approved by the Board of the  
Dutch Accreditation Council, on its behalf,

J.A.W.M. de Haas
